and Consumer
Protection

5 Reasons You Should Register Your Premises

1

It's the law. Premises registration is mandatory in Wisconsin, regardless of the number of animals you have. Even if you only have one backyard chicken, you are required to register your premises.

2

It's free. You will not be charged a fee for registering your premises.

3

It's easy. You can register online at www.wiid.org, by phone at 1-888-808-1910 or using paper forms available from DATCP or the Wisconsin Livestock Identification Consortium.

4

It protects you and your animals. Premises registration allows for much faster traces when there is an outbreak of animal disease or animal-borne human disease. If we know where susceptible animals are located, we can control the disease more quickly.

5

It's confidential. Information provided is confidential unless other laws require it to be open. DATCP is only allowed to disclose the information if necessary to prevent or control disease or protect public health.
